Who Will Care for Your Estate?

The Boston Safe Deposit & Trust Co. Offers elements of skill and safety in directing estates and trust funds which no individual can possess.

Permanence

The individual trustee or executor may become incapacitated or may die. His successor, appointed by the court, may be a person whom the testator under no circumstances would have chosen.

This company is not incapacitated by sickness or death. Its charter is perpetual.

Judgment

The business judgment of an individual trustee may not be sound, or may become impaired by advancing age.

The efficiency of this company in caring for estates depends on no one man. All of the executive board act together, giving the trust fund the benefit of their combined knowledge, experience and care.

Accessibility

The individual trustee may be ill or out of town, when he is needed most. This company is at its place of business, ready to serve, every business day in the year.

Security

Individual trustees ordinarily are not required to give security, and are not officially supervised.

This company gives a bond for twice the value of the personal property of an estate. This bond is secured by the capital, surplus and undivided profits of the company, and by the stockholders' liability—a total guarantee of \$4,500,000.

Every security held by this company is officially examined three times a year. Money and securities held in trust are not liable for the debts and obligations of the company.

Compensation

The charges of this company for its services as executor and trustee are no more than those customarily paid by individuals. Such charges are annually confirmed by the Probate Court.

We have a booklet telling more about this safeguarded trusteeship, which we will gladly send on application.

FACTS ABOUT HOOD'S MILK

A Perfect Milk is a Perfect Food.

H. P. Hood & Sons originated and employed hygienic methods in the production of PURE, CLEAN and SAFE Milk in the country years previous to any measures being taken by the Boards of Health or United States Department of Agriculture.

During sixty-four years of continuous service not a case of disease has been traced to Hood's Milk.

The food value of Hood's Milk is attested by sixty-four years of constantly increasing sales.

The name of "HOOD" is and has been for more than sixty years a synonym for excellence of dairy products and honesty and liberality in commercial dealings.

H. P. Hood & Sons have always maintained the highest standard in the quality of their dairy products and sell milk, cream and butter at the lowest price for which a PURE, CLEAN and SAFE article can be put upon the market.

The transportation facilities from their sources of supply in the country to the consumers in the city, and their local and suburban delivery system are unexcelled.

Hood Farm Milk won an Award of Merit for excellence of quality at the National Dairy Show Association Exhibition held under direction of the United States Department of Agriculture at Chicago, Illinois, February, 1906, after having taken the longest journey of any of the twenty-one lots of milk exhibited.

Hood Farm Milk also won the First Premium for Excellence of Quality offered by the Granite State Dairyman's Association at an exhibition held at Peterborough, N. H., December 7, 1906.

Hood's Butter was awarded sweepstakes and first premium by the Granite State Dairyman's Association at their Annual Meeting and Exhibition held at Exeter, New Hampshire, January 14, 1910.

Hood's Milk, Cream and Butter are supplied fresh every day in more than 100,000 homes, hotels and restaurants of Greater Boston.

No other milk dealers have expended the money to safeguard the health and happiness of their customers by employing Experts as inspectors to instruct the farmers — 1, as to the health of the herd and its protection; 2, the cleanliness of the cows and their surroundings; 3, construction and care of the utensils; 4, the health of the employees and the manner of milking; 5, handling the milk; the maintaining of a laboratory and making daily bacteriological tests and analyses; perfecting unexcelled transportation facilities and protecting the milk, cream and butter from contamination during transportation from the farm to the consumers' door, insuring them to be PURE, CLEAN and SAFE.

Hood's Cream is the Cream of Quality

INSTRUCTIONS TO KEY HOLDERS

Alarms are to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm open the door, pull the hook to the bottom of the slot once and let go. Each box contains a small bell, which, if heard before you pull indicates that an alarm has been previously given, and by listening at the box you will learn the number of box from which the alarm is given, but in no case will you pull the hook while the alarm is striking. After giving the alarm remain at the box so as to direct the firemen to the fire. Be sure that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably

inscribed being placed over each box giving the requisite information.

First alarm will be given by striking two or more rounds of box number

Second alarm will be given by striking two blows once followed by box number

Third alarm will be given by striking three blows followed by box number on gongs, bells and whistles

Fourth alarm will be given by striking four blows followed by box number on gongs, bells and whistles

Fifth alarm will be given by striking five blows, followed by box number on gongs, bells and whistles
